Sara Huxley Art

Artist

I am a contemporary painter, based in Stratford-upon-Avon, creating mixed media paintings with a particular passion for collage. I have a fine art textiles background which is often apparent in my paintings, through my use and love of colours, textures, and patterns. My works are a celebration of mixed media, utilising layers of acrylic paint, inks, oil pastels and collage crafted from newspapers which I have printed or lifted paint on to.

Jackie Pritchard-Jetts Artist

Artist

Hello! I'm Jackie or ArtyJax! I create colourful, expressive art inspired by nature, the coast, and everyday moments. Whether it's a calming coastal scene, a loose abstract, or a playful pet portrait, I love making art that connects with people and helps tie a room together. I'm especially passionate about using colour and texture to complement different interior styles and bring warmth and personality to a space.
